PROFESSIONAL SUMMARY

Computer Science student at Western University with technology consulting and fintech cybersecurity experience at Deloitte, iSolution, and PwC. Skilled in business analysis, cross-functional coordination, KPI reporting, process improvement, client presentations, and translating business needs into actionable recommendations.

EDUCATION

Western University — London, ON
Bachelor of Science, Computer Science — Expected 2027

Relevant Coursework: Software Engineering, Database Systems, Data Structures & Algorithms, Operating Systems, Object-Oriented Design, Artificial Intelligence.

PROFESSIONAL EXPERIENCE

Deloitte — Abu Dhabi, UAE
SOC Analyst, Technology & Transformation Intern — Jul - Sep 2026

- Supported cybersecurity operations and technology risk analysis for three fintech clients using Splunk SIEM, ManageEngine, Tenable, and iZOOlogic, identifying issues and supporting operational improvements.
- Developed technical and commercial proposals and RFP responses, analyzing client requirements and presenting tailored solutions to support business development initiatives.
- Prepared and presented weekly KPI and client reports, analyzing incident trends, performance metrics, vulnerabilities, and actionable recommendations for stakeholders.

iSolution - Google Cloud Partner — Dubai, UAE
SOC Analyst, Cybersecurity Intern — May - Jun 2025

- Analyzed Windows, Linux, network, and cloud data in Splunk SIEM to identify trends, investigate anomalies, and communicate findings for operational decision-making.
- Built Splunk dashboards and custom searches to improve data visibility, reporting efficiency, and investigation workflows.

PwC — Dubai, UAE
Technology & Data Advisory Intern — May - Jun 2024

- Supported an ADNOC digital transformation engagement, mapping business processes across 5+ units and evaluating automation opportunities for a multi-million-dollar technology investment portfolio.
- Assessed SAP, cloud, and analytics controls; documented recommendations for technology governance and process improvements.
- Prepared KPI dashboards and executive progress reporting across three workstreams, tracking delivery milestones and reducing ad hoc reporting requests by over 50%.

PROJECTS

Tab | Restaurant Payments Platform — Product Concept & Planning | 2026

- Exploring a QR-code-based pay-at-table solution for Canadian restaurants enabling customers to view bills, split payments, add tips, and complete checkout from their phones.
- Researching merchant workflows, B2B payment solutions, POS integration, customer experience, and operational requirements to inform product positioning and an initial roadmap.

LEADERSHIP & EXTRACURRICULARS

Computer Science Undergraduate Society (CSUS) — London, ON
Events Coordinator | Western University — 2024 - 2026

- Coordinated networking events, hackathons, and panels for 1,000+ students, managing logistics, vendor relationships, and cross-functional volunteer teams of up to 15.
- Worked with industry partners and alumni to secure speakers and sponsors, contributing to an approximately 35% increase in event attendance.
